AuraFlask

Care & Use Guide

Stainless-steel reusable bottle | 700 ml demo edition

Designed for everyday hydration. Follow these simple instructions to keep your bottle clean, fresh and performing at its best.

Before first use

- Wash the bottle, lid and removable seal with warm water and mild washing-up liquid.
- Rinse thoroughly and allow all parts to air-dry completely before reassembly.
- Check that the silicone seal is seated evenly inside the lid before filling.

Daily use

- Fill to a maximum of 10 mm below the neck to leave room for the lid and seal.
- Tighten the lid until snug. Do not over-tighten.
- For best temperature performance, pre-chill or pre-warm the bottle with water for 2-3 minutes.
- Keep the bottle upright in bags when carrying carbonated or warm liquids.

Cleaning

- Hand washing is recommended to preserve the exterior finish.
- Use a soft bottle brush for the interior. Avoid abrasive pads, bleach and chlorine cleaners.
- Remove the silicone seal periodically and wash it separately.
- Store with the lid off when the bottle is not in use to prevent odour build-up.

Important: This bottle is not designed for boiling liquids, dry ice, or prolonged storage of dairy products. Always check drink temperature before use.

Care details

A few extra tips for long-term performance.

DO	AVOID
Use mild soap and a soft brush.	Abrasive cleaners, scourers or steel wool.
Dry all parts fully between uses.	Freezing the bottle while completely full.
Inspect the lid seal from time to time.	Microwave, oven or hob use.
Use ice cubes that fit easily through the neck.	Forcing oversized ice through the opening.

Troubleshooting

Bottle has an odour
Soak with warm water and 1 teaspoon of bicarbonate of soda for up to 2 hours, then rinse thoroughly.

Lid is leaking
Remove and reseat the silicone seal. Check for debris around the sealing surface and tighten the lid firmly.

Drink warms or cools quickly
Confirm the lid is fully closed. Pre-condition the bottle with hot or cold water before filling.

Exterior is marked
Wipe with a soft damp cloth. Cosmetic marks do not normally affect insulation performance.

Safety

Do not allow children to use the bottle with very hot liquids. Do not use the bottle if the lid, neck or body is visibly damaged. This product is intended for beverages only.

Demo warranty

For demonstration purposes, AuraFlask is shown with a fictional 2-year limited warranty against manufacturing defects. Normal wear, cosmetic damage and misuse are excluded.

Model	Capacity	Material	Document
AF-700	700 ml	18/8 stainless steel	Rev. 1.0

This is a fictional document created for the Bynder Bridge demo site. It does not describe a real commercial product.
